* If you make one premium payment only, the initial premium payment will earn the initial interest rate, guaranteed for four or six years. On each contract anniversary after the initial guaranteed period, we will set a renewal interest rate which is guaranteed until the next contract anniversary.

If you make additional premium payments during the first contract year, each additional premium will earn interest at the rate in effect on the date we receive the premium until the first contract anniversary. On the first contract anniversary, the interest rate will be the dollar-weighted average of the first year base interest rates. This interest rate will then be guaranteed until the end of the initial guaranteed period (four or six years). At the end of the initial guaranteed period and each contract anniversary after, we will set a renewal interest rate which is guaranteed until the next contract anniversary*. Interest rates credited will change over time but are guaranteed not to be less than the guaranteed minimum interest rate stated in your contract.

Withdrawals made prior to age 59½ may be subject to a 10% IRS penalty tax.

Tax-qualified retirement arrangements, such as IRAs, SEPs, and SIMPLE-IRAs are tax-deferred. You derive no additional benefit from the tax deferral feature of the annuity. Consequently, an annuity should be used to fund an IRA, or other tax qualified retirement arrangement, to benefit from the annuity's features other than tax deferral. These features may include guaranteed lifetime income, guaranteed minimum interest rates, and death benefits without surrender charges.

Guarantees are based on the claims paying ability of Principal Life Insurance Company.
